Set the Audacity mic settings as follows:

1. Click on **1 (Mono) Re...** to reveal the drop-down menu

2. Select **2 (Stereo) Recording Channels**

3. Click on the **record button** to reveal the audio track
4. Stop the recording
5. Click on **audio track** to reveal the drop-down menu

6. Select **Split Stereo to Mono**

7. Click on **Audio Track #1** and press **delete** to remove the initial recordings for both tracks

Ensure that each mic knob is turned in opposite directions to pick up the sound as far away from each other as possible.

You will now be able to listen and edit audio tracks from Mics 1 and 2 separately.
