

OER Commons Sample Search

| | |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|
| <ul style="list-style-type: none">• All search terms are entered into the one search box. The order does not matter• Enter the key concept <p>Example: meiosis</p> <p>AND is understood. Add additional concepts in the same search box. Use OR to combine variations of spelling</p> <p>Example: Mendel OR Mendelian</p> |  |
| <p>The results page will show your search terms along with the number of results</p> |  |
| <p>You can also Refine your search by selecting from the menus listed</p> |  |

OER Commons Sample Advanced Search

The **advanced search** box works the same way as the basic search

In this example, the “quotation marks” are used to keep the phrase intact

Example: **“population genetics”**

Select from the **Additional Search Criteria** menus to find the most relevant content

Select as many checkboxes as needed

Search Resources

"population genetics"
