Communications/Marketing

Open Textbooks Display in Koerner Library
- Borrowing open textbooks from BCcampus (Lucas Wright looking into this - bringing books on the 23rd)
- Create small cards with the details of adoption/creation and cost savings
- Investigate the #Textbookbrokeubc images from 2017 to use
- Tiny URL or bitly out to the Open UBC website
- Use OT report 2017 for detail adoptions and creations at UBC
  - https://open.ubc.ca/open-ubc-snapshot-use-of-open-resources-continues-to-increase/
- Erin to check-in about displays (Contact Jayne Griffiths - have the display cases for two weeks starting March 5th)

Open Website (Communications)
http://about.library.ubc.ca/open-access/
- Communications will be updating the website to include the Open Education Events
- This can be the landing page for all open scholarship related events for the future

Slides for LCD Panels (Communications)
- Communications will be creating a slide deck for the LCD panels on Open Ed events and activities

---

UnCommon Women Panel

Date: Monday, March 5
Time: 5:00 pm- 8:00 pm
Location: SFU Harbour Centre, Segal Rooms 1400 & 1410
Free Registration

5pm-6pm: Wine & appetizers (sponsored by BCcampus)
6pm-8pm: Panel hosted by Kelsey Merkley (Creative Commons Canada), speakers include: Gwen Bird (SFU), Surita Jhangiani (JIBC), Rosie Redfield (UBC), Kory Wilson (BCIT)

In the 2014 Tutu Lecture "Women in Peace" Mary Robinson,President of Ireland, and the United Nations High Commissioner for Human Rights spoke to the importance of gender equality of the decision-makers in the room. And the value of amplifying the voice of women leaders brings more to the room and the decisions – Her practical recommendation was simple: *"that women in positions of authority walk into a room that is dominated by men should ask "**What's wrong with this room?**""*

Kelsey Merkley started [UnCommon Women](#) because she saw a gap between the women in senior operating roles and the men in "Thought Leader" roles. In other words, the women were getting s*** done. Kelsey wanted to celebrate and amplify the many strong brilliant and busy women of the commons.

Join Kelsey Merkley as she interviews and facilitates a conversation with a few of the UnCommon Women (Kory Wilson, Surita Jhangiani, Gwen Bird, and Rosie Redfield) in the lower mainland, BC. This is a kick off event for Open Education week and we hope you join us!

Pixelating DH Mixer - OpenStreetMap Mapping Party

Join us for an introductory session and mapping party where we will contribute to the freely accessible, non-commercial dataset of the world – OpenStreetMap (OSM). Contributions from this mapping party are toward Building Canada 2020 (BC2020i) – a nation-wide initiative to map all of Canada's buildings by 2020. With the aid of aerial imagery, we will map buildings in rural Masset and Trail, British Columbia. Inexperienced mappers are welcome (and encouraged!) to attend. The first 30 minutes of this session will be an info session to give new mappers a firm understanding of OSM principals and get off the ground to start adding buildings with confidence. Attendees can expect to spend about an hour mapping their area of choice. Pizza and light refreshments will be provided. OSM is a mapping collaborative aiming to create an open geographic dataset of the world, collected and imported by volunteers worldwide. OSM data is used by a variety of industries for a wide range of purposes as a replacement for other proprietary sources of geographic data – and map parties and mapathons are particularly notable for their benefit to emergency response efforts after large natural disasters as they can provide swift logistical support for on-site responders.

Date: March 8, 2018
Time: 1-2:30pm
Location: Rm 216 (Rm 217 overflow)
Registration: https://events.library.ubc.ca/dashboard/view/7257

Why building footprints?
From "[OSMGeoWeek mapathons support Building Canada 2020](#)":

"Building footprints and wheelchair attribute data are used to assess the city's accessibility. Building data can be merged with property assessment data to visualize property assessment values, or it can be merged with zoning data to visualize allowed versus actual buildings heights."

This OpenStreetMap Building Canada initiative has a vision of mapping all buildings in Canada by 2020. You can be a part of that.

Open Education Week: Open in Action

Date: Tuesday March 6
Time: 8:30 am- 2:00 pm
Location: [Richmond Campus, KPU Melville Centre for Dialogue](#)
[Free Registration](#)

Open Education Week's goal is to raise awareness about free and open educational opportunities that exist for everyone, everywhere, right now. We want to highlight how open education can help people meet their goals in education, whether that's to develop skills and knowledge for work, supporting formal studies, learning something new for personal interest, or looking for additional teaching resources.

Join faculty, staff and students at KPU Richmond Campus- Melville Centre for Dialogue to celebrate the Open Education Movement in BC. This event will include presentations from open advocates at various Institutions who will discuss their projects in detail and share how they have put open education into action. We are very pleased to welcome the BC Federation of Students to start the morning with all of us, as they will highlight the advocacy work they are engaged in from both an institutional perspective as well as governmental. The day will follow with presentations, lightning sessions, and hands on activities

8:30-9:00 am Coffee (sponsored by BCIT) & networking
9:00-9:10 am Welcome by Dr. Salvador Ferreras, Vice-President Academic & Provost, KPU
9:10-9:55 am Student perspectives on Open Education – BC Federation of Students panel
10:00-10:45 am Understanding Indigenous Practice in Open – Kory Wilson, Executive Director, Aboriginal Initiatives and Partnerships, BCIT
Kory comes to BCIT most recently from Vancouver Community College where she served as Director, Aboriginal Education and Community Engagement since 2011. Kory is Chair of the National Indigenous Education Committee of Colleges and Institutions Canada and a Global Access to Post-Secondary Education Ambassador. Kory has a law degree from UBC. With over 20 years of experience in post-secondary education, community development, and the legal profession, Kory's passion lies "in ensuring success for Aboriginal Learners and other multi-barriered learners". She has a deep commitment to education and has dedicated her working life to ensuring that under-represented learners succeed, both within learning institutions and the larger community. Kory is a member of the We Wai Kai Nation (Quadra Island) and is Musgamagw Tsawataineuk and Laich-Kwil-Tach. Both nations are part of the Kwakwaka'wakw Nation, also known as the Kwak'wala speaking people.
10:50-11:20 am Launching Canada's first Zed Cred programs – Krista Lambert, Open Education Advisor, BCcampus/Instructional Designer, JIBC & Dr. Rajiv Jhangiani, Special Advisor to the Provost on Open Education, KPU
A "Zed Cred" refers to a degree pathway that involves zero textbook costs, based on the adoption of open educational resources (e.g., open textbooks) or use of institutionally subscribed resources (e.g., library databases). In 2017, BCcampus awarded Zed Cred grants to three BC institutions–Kwantlen Polytechnic University (KPU), Thompson Rivers University, Open Learning (TRU-OL), and the Justice Institute of British Columbia (JIBC).
In this session, members of the Zed Cred teams will describe the collaborative approach to co-developing and peer-reviewing resources as well as share strategies used to build institutional capacity (e.g., faculty and staff training), identifying and overcoming challenges (e.g., integrating a Zed Cred notation in course timetables), conducting research (e.g., to evaluate the institutional impact of OER adoption), and developing a strategic framework.
11:25-11:55 am Developing in-house OER training – Caroline Daniels, Systems Librarian, KPU & Lucas Wright, Open Education Advisor, BCcampus

Migrating your documents into a web ready book has never been easier. Or has it?? While Pressbooks can magically turn your documents into online books (it seems), some faculty require a kick start, while others want full hands on help to pull their lectures and writings onto the open web. Find out how KPU Library is embedding themselves into the creative process on the Pressbooks platform. Learn what tools can work within Pressbooks to enhance delivery.

12:00-1:00 pm Lunch sponsored by BCcampus
Brief showcase presentations from 12:15pm by SFU, KPU, BCIT, UBC, & BCcampus
1:00-1:30 pm Opening Up Your Own Practice – Will Engle, Open Education Strategist, CTLT, UBC and Erin Fields, Liaison Librarian & Flexible Learning Coordinator, UBC Library
There are a number of ways we support students and faculty in our institutions engaging in open scholarly practice. This kind of support role can sometimes eclipse the ways we can engage in openly creating and sharing the products of our own work. This session will showcase how the presenters "open up" their own practices and generate practical ways to incorporate the tenants of openness into our everyday workflows.
1:30-1:50 pm Updates & future plans – Amanda Coolidge, Senior Manager of Open Education, BCcampus
1:50-2:00 pm Closing comments: Todd Mundle, University Librarian

Freedom to Read Week - Access to Information
Date: March 7, 2018
Time:
Location:
Registration:

Art + Feminism Wikipedia Edit-a-Thon
Event Organizer - Christine D'Onofrio, Instructor, Department of Art History, Visual Arts and Theory

We are students, librarians, professors, artists, art workers, and art lovers who create meaningful changes to the body of knowledge available about feminism and the arts on Wikipedia.

- Art + Feminism, http://www.artandfeminism.org/

Wikimedia Foundation found that less than 10% of its contributors identify as female. While the reasons for the gender gap are up for debate, the practical effect of the disparity is not: content is skewed by the

lack of female participation. This represents an alarming absence in an important repository of shared knowledge. The Art + Feminism Wikipedia Edit-a-Thon is an event held internationally to raise the profile of female artists in Wikipedia. Participants edit, update, or create entries that directly impacts the Wikipedia knowledge-base.

Are you interested in supporting this event?

- **Register:** Vancouver Art+Feminism Editathon Event
- **Event Date**: Saturday, March 10, 2018 @ Belkin Art Gallery & Sunday March 11, 2018@ Western Front Gallery
- **Time**: 12 - 5pm
- **Location**: Morris and Helen Belkin Art Gallery & Western Front Society
- **Cost:** Free
- **Childcare:** Please email christine.donofrio@ubc.ca to confirm need
- **Participants:** No Wikipedia editing experience necessary; as needed throughout the event, tutoring will be provided for Wikipedia newcomers. Female editors are particularly encouraged to attend. **Bring a laptop!**
- Twitter Hashtag: #artandfeminism #noweditingAF

Learning Analytics & Open Data Hackathon

Please join us for the 3rd UBC Learning Analytics Hackathon on March 10th and 11. The Hackathon seeks to explore in what ways learning data can be used to benefit students. Participants will have access to open learning data sets and will work towards developing, designing, and proposing tools, reports, and visualizations that could be used to improve student learning and experiences. Innovative proposals or designs could become part of the UBC's Learning Analytics pilot. During this two-day hackathon, participants will form teams, work hands on an open data set, and propose and design visualizations and dashboards and then show off what they accomplished at the end of the weekend with a brief presentation. The hackathon is free but registration is required. We will provide data, space, mentoring, breakfasts, and lunches. No prior experience is necessary!

Date: March 10 & 11, 2018
Time: 9am to 5pm
Location: Sauder Learning Labs

Registration: https://events.ctlt.ubc.ca/events/learning-analytics-open-data-hackathon-3-0/
