

## WIMBA VOICEBOARD

### *Adding a Voice Board.*

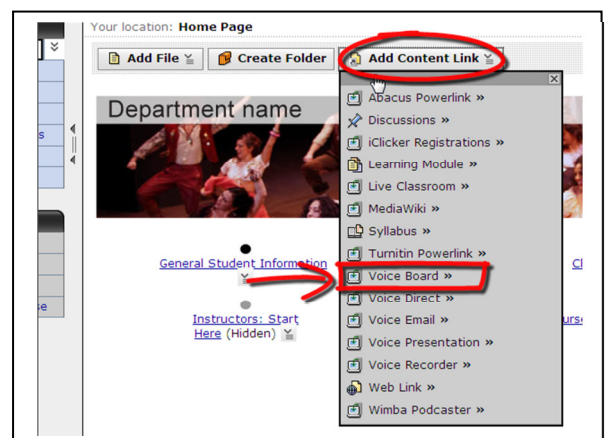

1. Switch to the Build tab.

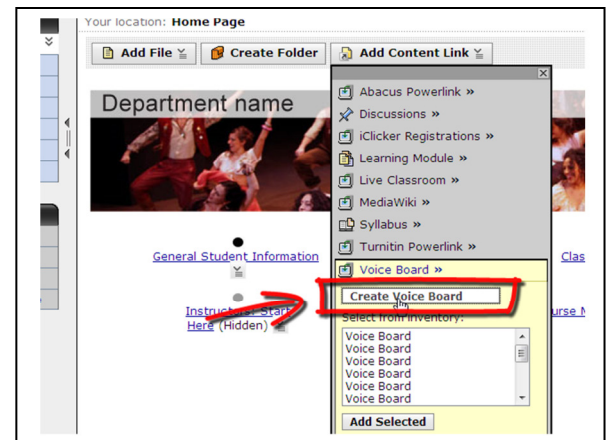

2. Click on "course content".

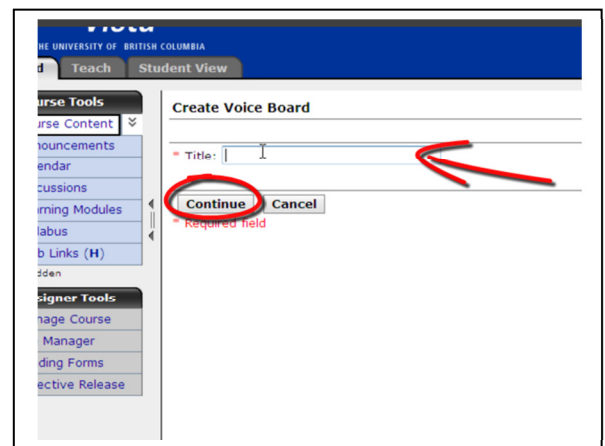

3. Click on "Add Content Link" and choose "Voice Board".

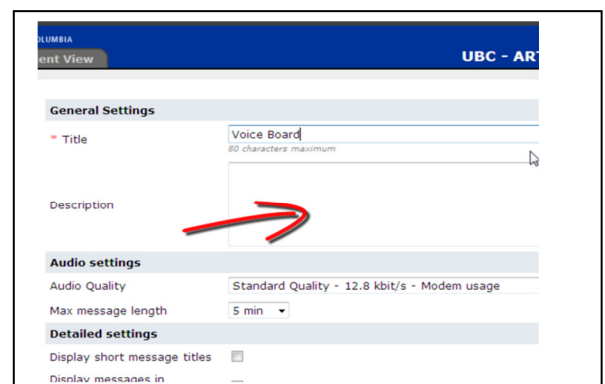

- Click on "Create Voice Board".

- You will be directed to a new page. Type in a "title" and click "continue".

- You can also choose to type a description about your Voice Board here.

7. Change other setting of the voice board such as the maximum length of a message.  
Click “continue” when done.

The screenshot shows the 'Voice Board' configuration interface. On the left is a sidebar with 'Course Content' (Announcements, Calendar, Discussions, Learning Modules, Syllabus, Web Links (H)) and 'Designer Tools' (Manage Course, File Manager, Grading Forms, Selective Release). The main panel has a 'Description' field at the top. Below it are 'Audio settings' (Audio Quality: Standard Quality - 12.8 kbit/s, Max message length: 5 min) and 'Detailed settings' (various checkboxes for message display and student actions). At the bottom, the 'Continue' button is circled in red, with a 'Cancel' button next to it. A red asterisk indicates a required field.

8. Your Voice Board will appear on the homepage when it is created.
