

Our trade is producing knowledge and implementing it. What are some of the tools that are being used? Choosing the appropriate tool or method for your research is one of the most critical components for advancing academic inquiry. What approaches to research are in the academic's toolbox? The **Research Commons** invites **graduate students** to join us for our **April FIRE***talk*. Share with an interdisciplinary audience how a tool or method is used in your field:

- interdisciplinary perspectives
- mixed methods designs
- meta-analysis strategies
- cutting edge technology
- classic techniques proven by time

Register at: http://bit.ly/ToolsofTrade or just stop by the FIREtalk!

**FIRE***talks*: An interdisciplinary forum for graduate students, by graduate students.
