We hope you will leave this session with:

- Considerations of UBC's Copyright Context for teaching and learning
- An introduction to what makes an educational resource "Open"
- Considerations of the practicalities working with other people's content
- Information on support available at UBC

Attribution 4.0 International (CC BY 4.0)

This is a human-readable summary of (and not a substitute for) the [license](#). [Disclaimer](#).

You are free to:

Share — copy and redistribute the material in any medium or format

Adapt — remix, transform, and build upon the material for any purpose, even commercially.

The licensor cannot revoke these freedoms as long as you follow the license terms.

Exceptions to Copyright

Fair Dealing

Must be for an allowable purpose

Is less likely to be applicable in an open environment

Educational Exceptions

An additional set of exceptions for educational institutions

Are less likely to be applicable in an open environment

Copyright is hard!

- Hyperlinking and embedding is OK
- Using UBC licensed material (in the classroom) is OK
- Using openly licensed work is OK
- Using anything in the public domain is OK

Who owns the Rights?

Faculty Work	Student Work	Staff Work
<p>Retain copyright in their work</p> <p>Policy 88 (Inventions and Discoveries)</p> <p>Policy 81 (Use of Teaching Materials in UBC Credit Courses)</p>	<p>Retain copyright in their student work</p> <p>Theses and dissertations are required to be openly disseminated</p> <p>Student employees likely do not retain copyright</p>	<p>Operate under the “work for hire” provision</p> <p>Do not retain copyright in their work</p>

Using Student Work

Created by Julynn B.
from Noun Project

When in doubt, consider
asking for permission

Author Rights

Created by endang firmansyah
from Noun Project

Consider the rights you have in your own work and to what degree you give them up when you publish

Commonly, publication agreements include copyright transfers

Where Policy ends and Risk begins

So, what's ~always OK to use?

- your own work
- material in which copyright *no longer* exists
- hyperlinks (and embed codes)
- **openly licensed works**

What Does “Open” Mean?

<https://is.gd/UBCopen>

Open Like A Museum

[Flagstaff Gallery](#), shared by the Flagstaff Gallery, [CC BY-SA 4.0](#), via Wikimedia Commons, Slide Adapted from Christina Hendricks.

COST

Free or minimal fees for users

ACCESS

Ability to view/read/use with no or minimal barriers (bandwidth needed, software, passwords, account creations, memberships, etc)

REUSE

Open copyright licenses that allow for reuse, modification, commercial use, etc

Formats that allow for editing, copying, etc.

ACCESSIBILITY

Digital accessibility, Universal Design for Learning

CONNECTION

Open participation, community engagement, development of networks, students contributing knowledge, inclusion, etc.

Open Educational Resources (OER) are any teaching and learning resources that are free of cost and access barriers, and which also carry legal permission for open use allows anyone to freely use, adapt and share the resource—anytime, anywhere”

([SPARC](#), n.d.; [Hewlett Foundation](#), n.d).

According to the [2022 AMS Academic Experience Survey](#):

- **\$1,253** is the average amount UBC undergraduates spend on textbooks and other course resources in the past year.
- **30** percent of undergraduates reported that they frequently or often go without textbooks or other learning materials due to cost.

The 5 R's of Open Content:

01	Retain	<ul style="list-style-type: none">• make, own, and control a copy of the resource• e.g. download and keep your own copy
02	Revise	<ul style="list-style-type: none">• edit, adapt, and modify your copy of the resource• e.g. translate into another language
03	Remix	<ul style="list-style-type: none">• combine your original or revised version with other existing material to create something new• e.g. make a mashup
04	Reuse	<ul style="list-style-type: none">• use your original, revised, or remixed copy of the resource publicly• e.g. on a website, in a presentation, in a class
05	Redistribute	<ul style="list-style-type: none">• share copies with others• e.g. post a copy online

David Wiley, From: [Defining the "Open" in Open Content and Open Educational Resources](#)

Creative Commons
(CC) licenses
provide advance
permission to use
copyrighted
material under
certain conditions.

“Certain Conditions”

Attribution

Others can copy, distribute, display, perform and remix your work if they credit your name as requested by you

No Derivative Works

Others can only copy, distribute, display or perform verbatim copies of your work

Share Alike

Others can distribute your work only under a license identical to the one you have chosen for your work

Non-Commercial

Others can copy, distribute, display, perform or remix your work but for non-commercial purposes only.

T = Title

A = Author

S = Source

L = Licence

Creative Commons Reflections

- Can you reuse the material? Are you allowed to change or adapt it?
- Have you met the license conditions? Have you provided attribution?
- Is the content appropriate to your audience?
- Is the text culturally sensitive?
- Is the content accessible to students with diverse abilities?

Field Expert Reviews

Textbooks are reviewed by subject matter experts in addition to our quality assurance process. Reviewers are paid an honourarium to provide their honest feedback on the material.

Assistant Professor

Greg Ballentine, Brandon University

" This text is a good text for a Physics 090 type course (essentially physics 12 but taught at university). It is well written and takes into account physics education research. If anything it is too comprehensive and contains sections that are not likely to be used in suc..."

[View full review](#) >

Senior Lecturer

Neil Alberding, Simon Fraser University

" Here are the rest of my prepared omments: It's unfortunate, but most of us who teach physics soon realize that students don't read the textbook. Perhaps they use it as a last resort for finding hints on solving homework problems. No matter how well written, laid..."

[View full review](#) >

Physics & astronomy faculty

Takashi Sato, Kwantlen Polytechnic University

" (1) my preface: This review has been conducted jointly by Takashi Sato and Tyron Tsui (alphabetical order). Tsui nominally examined Chapters 1 - 17 and Sato nominally examined Chapters 18 - 34. Further, Dr. Tsui has the experience of having adopted this book for his class (..."

THE UNIVERSITY OF BRITISH COLUMBIA

The UBC OER Fund

Grants to support:

- Reduction in student costs for learning materials and assessments in UBCV credit courses through the replacement of paid materials with OER
- Course enhancements using open educational resources, including assessment materials.
- Activities and events that seek to engage the UBCV community in supporting OER.
