Launch Meeting - Zoom - Googl... Snagit Capture Zoom Cloud Meetings Downloads

Share computer sound Optimize Screen Sharing for Video Clip

Share

The image shows the Zoom sharing selection window. A red box highlights the top row of options: 'Screen', 'Whiteboard', and 'iPhone/iPad'. A circled '2' is next to 'iPhone/iPad'. Another red box highlights the bottom row of controls: 'Share computer sound', 'Optimize Screen Sharing for Video Clip', and the 'Share' button. A circled '1' is above the 'Share' button. A circled '3' is above the 'Share computer sound' and 'Optimize Screen Sharing for Video Clip' options. The 'Zoom Cloud Meetings' option is also highlighted with a blue border.

Effective Practices

Effective Practices: Teaching

- Set and discuss your online etiquette and expectations
- Consider the bandwidth limitations some students have and try to rely less on high-bandwidth tools such as video and screen sharing.
- Share a document or slide at the beginning of each class that lays out an agenda
- Utilize the whiteboard or annotating feature for shared documents.
- Use the polling feature to increase interactivity in the class
- Pause regularly to promote responses from your class.
- Consider allowing students to take over screen control and present or share projects with the class.
- Balance synchronous and asynchronous teaching

Best Practices: Technical

- Find a private, quiet, well-lit room
- Use an external microphone
- When you schedule a lecture, pre-set your meeting to mute participants' microphones upon entry.
- Ask students to join the session a few minutes early to test their connection, microphone, and camera before the lecture begins.

Best Practices

- If you experience lag time when presenting, try turning off your video, if you can.
- If possible, get someone (e.g., teaching assistant) to help monitor questions and handle technical troubleshooting with students during the lecture.
- Protect against Zoom bombing
- Students do not need to create an account to access Zoom sessions
