

Here's Where To [Watch] 'Barbie' Movie (Free) Online Streaming At Home

29 secs ago - Warner Bros! Here are options for downloading or watching Barbie streaming the full movie online for free on 123movies & Reddit, including where to watch Margot Robbie's highly-anticipated movie at home. Is Barbie available to stream? Is watching Barbie 2023 movie on Peacock, Disney Plus, HBO Max, Netflix or Amazon Prime? Yes, we have found an authentic streaming option/service. Barbie' is finally here. Find out how to watch Greta Gerwig's Pink romp comedy movie Barbie 2023 online for free.

(LAST UPDATE : 30 July 2023)

The pink wave was stronger than anticipated as Barbie raked in a massive \$155 million during its opening weekend in North America.

The Greta Gerwig-directed film, starring Margot Robbie and Ryan Gosling, follows the beloved doll on a journey to the real world. Barbie secured the biggest opening of the year, sailing past The Super Mario Bros. Movie and making history as the biggest box office opening for a female director.

From director Greta Gerwig, Margot Robbie stepped into the heels of the iconic Mattel doll, with Ryan Gosling's Ken (and a host of other Barbies and Kens, including some iconic flops) by her side. The film was first announced in 2016, with Amy Schumer originally attached to star, however, after a few switchups with the creative team, the movie took on a whole new form, and audiences loved Gerwig's subversive but sweet take on the doll's journey out of Barbieland (and back).

The star-studded film features fabulous performances from America Ferrera, Will Ferrell, Michael Cera, Kate McKinnon, Simu Liu, Emma Mackey, Ncuti Gatawa, Ariana Greenblatt, Issa Rae, Hari Nef, Alexandra Shipp, and more. The film also includes an impressive soundtrack from Mark Ronson, with pop-hits from Lizzo and Dua Lipa, a "Barbie Girl" remix by Nicki Minaj and Ice Spice, and even a hilarious solo performance from Gosling's Ken.

Barbie might have had numerous animated films thus far, but never a live-action depiction of the pink car and the stylish outfits. Although the idea of turning the Mattel staple into a live-action had been discussed for over a decade, it took Greta Gerwig to sign her name onto the project and make it fly off the page. With none other than Margot Robbie playing the beloved doll, Barbie might be one of the most anticipated productions to come out this summer.

Based on the popular Barbie fashion dolls by Mattel and the first live-action movie based on the eponymous doll, 'Barbie' is a fantasy comedy-drama movie that revolves around Barbie, who lives in the perfect world of Barbie Land.

When will the Barbie movie land on streaming platforms? Based off other Warner Bros. blockbusters like Top Gun: Maverick, audiences might have to wait a few months before Barbie makes its digital debut. So Here's everything you need to know about the upcoming Barbie movie, including where and how to watch Barbie 2023 online for free.

When did Barbie release in theaters?

After weeks of promotional appearances, Barbie held its world premiere in Los Angeles, California on July 9. The film officially hit theaters on July 21. The film's runtime has been revealed as 113 minutes, or one hour and 54 minutes long.

As of yet, there is no schedule for a digital release, though this could be expected around 45 days after in line with the studio's history. While nothing is set in stone, audiences could be seeing the Barbie movie online as soon as September 2023.

Will Barbie Be in Movie Theaters?

Yes, Barbie will initially be released exclusively in movie theaters. Tickets for the highly anticipated film went on sale on June 21, 2023, and a promotional video was released to coincide with the announcement. Want to watch Barbie on the big screen? This AMC ticket promo lets you buy a ticket to the Barbie movie at discount rated of \$11.99, which isn't bad, considering an AMC movie ticket for adults can cost as much as \$15-\$25.

How long is Barbie's theatrical release window?

Due to COVID, WarnerMedia had been simultaneously releasing films in theaters and on HBO Max (now Max) and in theaters, meaning films were available to stream on the service the same day they hit theaters.

But more recently, the distributor's films have been given an exclusive, 45-day theatrical window before hitting their streamer. The latest update is that the company will now use a "case-by-case basis" approach to determining when their theatrically-released films will land on Max.

Will Barbie Be Available on Streaming?

Barbie will initially only be released exclusively in movie theaters. However, once the film's theatrical window has ended it will be available to stream exclusively on Warner Bros's newly rebranded streaming service Max, following in the footsteps of other recent Warner Bros releases including Shazam! Fury of the Gods and Magic Mike's Last Dance.

When will Barbie be available to stream?

Similar to Disney+'s recent streaming rollout process, Barbie will likely be available to purchase on Digital first following its theatrical release window. This includes platforms like Amazon Prime Video, Vudu, and iTunes.

If recent Warner Bros. films — like Evil Dead Rise, which hit Max almost two months after its theatrical release — are any indication, Barbie likely won't hit Max until September 2023.

How to Watch Barbie Movie Online

Barbie premiered on July 21, 2023. In the streaming era, films usually play in theaters for at least a month before heading to a platform that you can subscribe to. And if the film is particularly successful, it may take even longer before its theatrical run ends.

There's no telling when Barbie will leave theaters, but it's possible the film could be available to watch on-demand or streaming in the fall.

Where To Watch Barbie 2023 Online:

As of now, the only way to watch Barbie is to head out to a movie theater when it premieres on June 16, 2023. You can find a local showing on Fandango.

Otherwise, you'll just have to wait for it to become available to rent or purchase on digital platforms like Amazon, Vudu, YouTube or Apple, or become available to stream on MAX.

Will the Barbie movie stream on HBO Max?

As we all know, HBO Max is no stranger to acquiring brand-new films not too long after they were released in theaters. Dune and Robert Pattinson's The Batman are just a few of these titles that the streaming platform managed to add to its lineup. Because of this, it's safe to assume Barbie will also be a film HBO Max quickly secures once it officially leaves theaters.

What's more, with other Warner Brothers Pictures films like Tenet and Aquaman on the site, it's expected that the production company will continue this partnership with HBO Max. As far as other streaming platforms are concerned, we certainly wouldn't put it past this star-studded film to debut on sites, too.

Netflix and Hulu are always probable options, as are Amazon Prime Video and YouTube Movies. Apple TV+ is also a likely option, but you'll definitely have to take our predictions

with a grain of salt as it's also just as likely that Barbie won't stream on any of these sites. (Who knows? Maybe Warner Bros. will release their own streaming site by 2023!)

Will Barbie be available to watch via streaming on Netflix?

There are currently no official plans to release the Barbie movie on Netflix after its July 21 release date, though this could change in the future. There are several Barbie movies already available to watch on Netflix including Barbie Dreamhouse Adventures, Barbie Dolphin Magic, and Barbie Mermaid Power (via GameRevolution). While the 2023 Barbie movie is a bigger deal than these previous releases, this established partnership could continue in the future.

Will Barbie be available to watch via streaming on Amazon Prime Video?

The Barbie movie could eventually be available to watch on Prime Video, though it will likely be a paid digital release rather than being included with an Amazon Prime subscription.

This means that rather than watching the movie as part of an existing subscription fee, you may have to pay money to rent out the movie digitally on Amazon. However, neither Warner Bros. nor Amazon has discussed whether or not this will be the case.

Will Barbie Be On Disney+?

No, Barbie will not be on Disney+ since it's not a Universal Pictures movie. Last year, the company released its films in theaters and on the streamer on the same day. However, they now allow a 45-day window between the theatrical release and the streaming release.

Is Barbie Available On Hulu?

Viewers are saying that they want to view the new animation movie Barbie on Hulu. Unfortunately, this is not possible since Hulu currently does not offer any of the free episodes of this series streaming at this time. It will be exclusive to the MTV channel, which you get by subscribing to cable or satellite TV services. You will not be able to watch it on Hulu or any other free streaming service.
