

Questions to Consider:

- Do you want your students to contribute to community beyond UBC?
- Are you collaborating the course/project with an institution/ faculty outside of UBC?
- The subject matter you are teaching is not covered well in wikipedia
- Is it your first time using Wikipedia?
- You or students are planning to write about original research
- You are planning to ask students to work on a controversial wiki article

Create a course in <http://www.wiki.ubc.ca/course>

Questions to Consider:

- Are you confident with Wikipedia?
- Do you want to manage your Wiki assignment by yourself?
- Is your assignment smaller scale? (For ex: copyrighting and adding citation)
- Is your assignment complex? (For ex: creating a new article in Wikipedia)
- Do you want to be able to track students' progress easily?
- Do you prefer to have some template to create your wiki assignment?

Plan how do you want to create an assignment, train students, and ask students to edit directly on Wikipedia
