

UBC Research Commons Graduate Academic Assistant for Qualitative Data Analysis Software Support

Position Description

The Research Commons (RC) is located within Koerner Library and provides a welcoming, interdisciplinary research-driven learning environment for graduate students and Faculty. We are looking for a graduate student with strong teaching and IT skills to join our team supporting qualitative software support services. As a RC Graduate Academic Assistant for Qualitative Analysis Software Support you will:

- participate in the development, design, and delivery of in-person workshops using qualitative analysis software to support regular RC workshop programming and one-off faculty requests
- offer one-on-one consultation services to assist with qualitative analysis software support using multiple operating systems, platforms, and software
- develop and maintain qualitative analysis software support guides and resources on the RC web site, in collaboration with the relevant subject librarians
- promote and market RC programs to graduate students and other stakeholders using traditional communication and social media tools
- develop and implement methods for ongoing program assessment
- participate in regularly scheduled RC project team meetings, RC GAA training program and ongoing learning opportunities
- be familiar with Library and campus Learning Support Services available for graduate students, including Faculty of Graduate and Postdoctoral Studies and the Graduate Pathways to Success Program [GPS], and refer users accordingly
- participate in the check in regularly with supervising librarians and the RC Program Assistant regarding RC service priorities, scheduling, promotion and assessment
- foster a welcoming, research-driven, interdisciplinary learning environment for graduate students and faculty

Required Qualifications

- Full-time, currently enrolled master's or doctoral student at UBC
- In depth knowledge of, and experience using qualitative analysis software (i.e. NVivo, AtlasTI)
- Teaching experience, preferably in an academic setting
- Ability to learn new technologies quickly
- Aptitude in multiple operating systems and platforms (i.e. Mac OS, Windows)
