How to watch the MLS match between St. Louis and Inter Miami, as well as kick-off time and team news.

When Inter Miami travels to CityPark to play St Louis City on Saturday, they will be attempting to snap an 11-game winless streak in Major League Soccer.

After losing to Los Angeles FC in midweek, the home team has won three of their past four games, while the visitors have only earned three points in their last five games and are currently last in the Eastern Conference.

St Louis' three-game winning streak, which included triumphs against Toronto FC, Colorado Rapids, and San Jose Earthquakes, was snapped by that loss to LAFC.

However, what Bradley Carnell has accomplished as this team's manager in their first season is nothing short of amazing. St. Louis is still at the top of the Western Conference, two points ahead of LAFC in second place, after accumulating 38 points from 22 games and winning seven of their 11 home games.

This weekend marks the start of life under Gerardo Martino at Inter Miami as the former Barcelona manager observes his first game in charge of the Herons on Sunday.

Inter Miami's third straight draw in as many games against DC United served as a fitting cap to Javier Morales' time as temporary manager before returning to his position as an assistant. Miami went winless during Morales' tenure as manager.

With Miami now sitting at the bottom of the Eastern Conference with just 18 points after 21 games and one away victory, Martino will have his work cut out for him if he wants to turn around the Fort

Lauderdale team. He will be hoping that the impending additions of Lionel Messi and Sergio Busquets will be able to assist.
