

# Education for Sustainability: Integrating the UN Sustainable Development Goals in Teaching, Learning, and Leadership

CTLT SPRING INSTITUTE 2022

**KSHAMTA HUNTER  
TARA MOREAU  
TERRY SUNDERLAND**

## LAND ACKNOWLEDGMENT

*We would like to acknowledge that UBC's Vancouver Point Grey campus is situated on the traditional, ancestral, unceded territory of the Musqueam people. We would also like to acknowledge that you are joining us today from many places, near and far, and acknowledge the traditional owners and caretakers of those lands.*

native-land .ca

# POLL INTRODUCTIONS

1. How familiar are you with the Sustainable Development Goals (SDGs)

- Very familiar
- Somewhat familiar
- Have heard about them
- Not at all

2. Are you using the SDGs in your practice?

- New entrant
- Yes a little
- Yes a lot
- Not sure

# Agenda

Welcome and Land Acknowledgment

Introductions

What are the SDGs?

- Does this framework make sense to you?
- Why are they important?
- Limitations and their potential for a decade of action

Sharing approaches to sustainability and the SDGs at UBC

- UBC Botanical Garden
- Forestry
- Sustainability Hub

Group Activity: How can we use the SDGs for education, teaching and learning at UBC?

Sharing resources

Adjourn

# SUSTAINABLE DEVELOPMENT

“humanity has the ability to make development sustainable to ensure that it meets the needs of the present without compromising the ability of future generations to meet their own needs” (Brundtland Report: UN World Commission on Environment and Development (WCED) – Our Common Future, 1987, p. 43).

## SUSTAINABLE DEVELOPMENT GOALS

<b>1</b> NO POVERTY 	<b>2</b> ZERO HUNGER 	<b>3</b> GOOD HEALTH AND WELL-BEING 	<b>4</b> QUALITY EDUCATION 	<b>5</b> GENDER EQUALITY 	<b>6</b> CLEAN WATER AND SANITATION 
<b>7</b> AFFORDABLE AND CLEAN ENERGY 	<b>8</b> DECENT WORK AND ECONOMIC GROWTH 	<b>9</b> INDUSTRY, INNOVATION AND INFRASTRUCTURE 	<b>10</b> REDUCED INEQUALITIES 	<b>11</b> SUSTAINABLE CITIES AND COMMUNITIES 	<b>12</b> RESPONSIBLE CONSUMPTION AND PRODUCTION 
<b>13</b> CLIMATE ACTION 	<b>14</b> LIFE BELOW WATER 	<b>15</b> LIFE ON LAND 	<b>16</b> PEACE, JUSTICE AND STRONG INSTITUTIONS 	<b>17</b> PARTNERSHIPS FOR THE GOALS 	<b>SUSTAINABLE DEVELOPMENT GOALS</b> 

# Education for Sustainable Development (ESD)

“ESD empowers learners to take informed decisions and responsible actions for environmental integrity, economic viability and a just society, for present and future generations, while respecting cultural diversity. It is about lifelong learning, and is an integral part of quality education. ESD is holistic and transformational education which addresses learning content and outcomes, pedagogy and the learning environment. It achieves its purpose by transforming society.” (UNESCO, 2017)

# SUSTAINABLE DEVELOPMENT GOALS

<b>1</b> NO POVERTY 	<b>2</b> ZERO HUNGER 	<b>3</b> GOOD HEALTH AND WELL-BEING 	<b>4</b> QUALITY EDUCATION 	<b>5</b> GENDER EQUALITY 	<b>6</b> CLEAN WATER AND SANITATION 
<b>7</b> AFFORDABLE AND CLEAN ENERGY 	<b>8</b> DECENT WORK AND ECONOMIC GROWTH 	<b>9</b> INDUSTRY, INNOVATION AND INFRASTRUCTURE 	<b>10</b> REDUCED INEQUALITIES 	<b>11</b> SUSTAINABLE CITIES AND COMMUNITIES 	<b>12</b> RESPONSIBLE CONSUMPTION AND PRODUCTION 
<b>13</b> CLIMATE ACTION 	<b>14</b> LIFE BELOW WATER 	<b>15</b> LIFE ON LAND 	<b>16</b> PEACE, JUSTICE AND STRONG INSTITUTIONS 	<b>17</b> PARTNERSHIPS FOR THE GOALS 	 SUSTAINABLE DEVELOPMENT GOALS

Do you think there are any linkages between the SDGs and the course(s) you teach?  
If yes, which SDGs connect well with your course(s)?

# SUSTAINABLE DEVELOPMENT GOALS

SUSTAINABLE DEVELOPMENT GOALS  
17 GOALS TO TRANSFORM OUR WORLD

# Universal

# Another Way to Look at SDGs – The Five Ps

People

Prosperity

Planet

Peace

Partnership

# Another Way to Look at SDGs – The three pillars

# SDGs are Robust and Detailed

169 targets, 232 indicators

Some very well defined, others less so

# TARGET 1.2

1 NO POVERTY

REDUCE POVERTY BY AT LEAST 50%

# TARGET 2.4

2 ZERO HUNGER

**SUSTAINABLE FOOD PRODUCTION  
AND RESILIENT AGRICULTURAL PRACTICES**

# All 232 SDG Indicators: What data is available?

This visualization shows for which of the 230 Sustainable Development Goals (SDGs) Indicators data is available at [SDG-Tracker.org](https://sdg-tracker.org).

- = Indicators for which recent global official metrics are available, or for which alternative good-quality cross-country source are available (e.g. estimates from independent research institutes).
- = Indicators that do have official metrics, but for which available data is very incomplete or outdated. Yellow boxes also mark Indicators for which there are no official metrics, but for which closely related estimates are available that allow informative but imperfect monitoring.
- = Indicators for which – to the best of our knowledge – global monitoring is not currently possible.

You find all data on [SDG-Tracker.org](https://sdg-tracker.org), a sister project of [OurWorldInData.org](https://ourworldindata.org). In case you are aware of relevant data we have not included yet please let us know via [SDG-Tracker.org](https://sdg-tracker.org).

Licensed under CC-BY-SA by the authors.

# SDG Weaknesses

- Development- or growth-focused approach
- Human-centric
- Ethnocentric
- Missing alternative visions of sustainability and development
- No accountability

# EDUCATION FOR SUSTAINABLE DEVELOPMENT

Towards achieving the SDGs: *ESD for 2030*

GLOBAL ACTION PROGRAMME  
(2015-2019)

ESD for 2030  
(2020-2030)

## Vision

ESD for 2030 aims to build a more just and sustainable world through strengthening ESD and contributing to the achievement of all 17 Sustainable Development Goals

## Priority action areas

- 2) Transforming learning environments
- 3) Building capacities of educators
- 4) Empowering and mobilizing youth
- 5) Accelerating local level actions

## Strategic objective

Promote ESD as a key element of quality education and a key enabler of all 17 Sustainable Development Goals with special attention to a) individual transformation, b) societal transformation & c) technological advances

## Target groups

Policy-makers, institutional leaders, learners, parents, educators, youth & communities

## ACTIVITIES BY MEMBER STATES: COUNTRY LEVEL MULTI-STAKEHOLDER INITIATIVE

1

### Advancing policy

Integrating ESD in global, regional & national policies of education & sustainable development

2

### Learning Environment

Promoting whole-institution approach

3

### Educators

Providing capacity development opportunities

4

### Youth

Providing opportunities for youth engagement

5

### Community

Empowering local communities as "nodal" platforms for all priority action areas

Country level multi-stakeholder initiative on ESD

Normative guidelines & country-level support

Inclusive network of partners

Provide regular platforms to meet & exchange

Monitoring & evaluation

Monitor achievements in the 5 priority action areas & programme implementation, in line with SDG Target 4.7 monitoring

Communicating for action

Develop a dedicated programme to inform about the SDGs & the role of education

Evidence-informed implementation & resource mobilization

Monitor emerging issues & trends and mobilize resources to support ESD implementation

UNESCO SUPPORT TO MEMBER STATES

If you could have an 18th SDG what would it be? What is missing from the framework?

**Abstract:** The United Nations 2030 Agenda for Sustainable Development outlines 17 goals for the wellbeing of people and the planet. The purpose of this study was to understand how University of British Columbia Botanical Garden (UBCBG) contributes to the United Nations Sustainable Development Goals (UN-SDGs) and to identify opportunities for future action. To address this, we worked across departments to assess our programs and activities against the UN-SDG 17 goals and 169 targets. The UN-SDG indicators were only used to identify potential metrics that could be considered for future tracking. The main activities of UBCBG include ex situ plant conservation, sustainability education and community engagement. Our results found that UBCBG contributes to 12 of the 17 goals and 24 of the 169 targets. The two UN-SDGs with more targets aligned to UBCBG's activities were Goal 15—Life on Land and Goal 12—Responsible Consumption and Production. Through its partnerships with other botanical gardens, research institutions and the regional government, the Garden amplifies its work at a global, national and regional level. We are re-imagining the role of botanical gardens in an age of equity, decolonization, the biodiversity crisis and the climate emergency. Since the UN-SDGs address both nature and people, they are an appropriate framework to guide our work.

# The Flora that Feed Us

## Food Plant Genetic Resources

### Target 2.5: Maintain the genetic diversity in food production

By 2020, maintain the genetic diversity of seeds, cultivated plants and farmed and domesticated animals and their related wild species, including through soundly managed and diversified seed and plant banks at the national, regional and international levels, and promote access to and fair and equitable sharing of benefits arising from the utilization of genetic resources and associated traditional knowledge, as internationally agreed.

# Forests & people: the SDGs as a teaching framework

Terry Sunderland  
Professor, Tropical Forestry  
30<sup>th</sup> May 2022

[terry.sunderland@ubc.ca](mailto:terry.sunderland@ubc.ca)  
<https://sunderlandlab.forestry.ubc.ca/>

**forestry**  
university of british columbia

# Re-defining forestry for the 2030 agenda

- Poverty alleviation (SDG 1)
- Food, nutrition and health (SDG's 2 & 3)
- Water, energy and housing (SDG's 6, 11 & 15)
- Livelihoods and employment (SDG's 8, 9 & 11)
- Climate change adaptation and mitigation (SDG 13)
- Biodiversity conservation (SDG 15)
- Resilience and safety nets (all SDG's)

<https://sustainabledevelopment.un.org/post2015/transformingourworld>

# Analyses of the role of forests in regard to SDGs have focused on both...

...the contributions of forests to the SDGs

...or the implications of the SDGs (as written) for forests

# Why forests are important

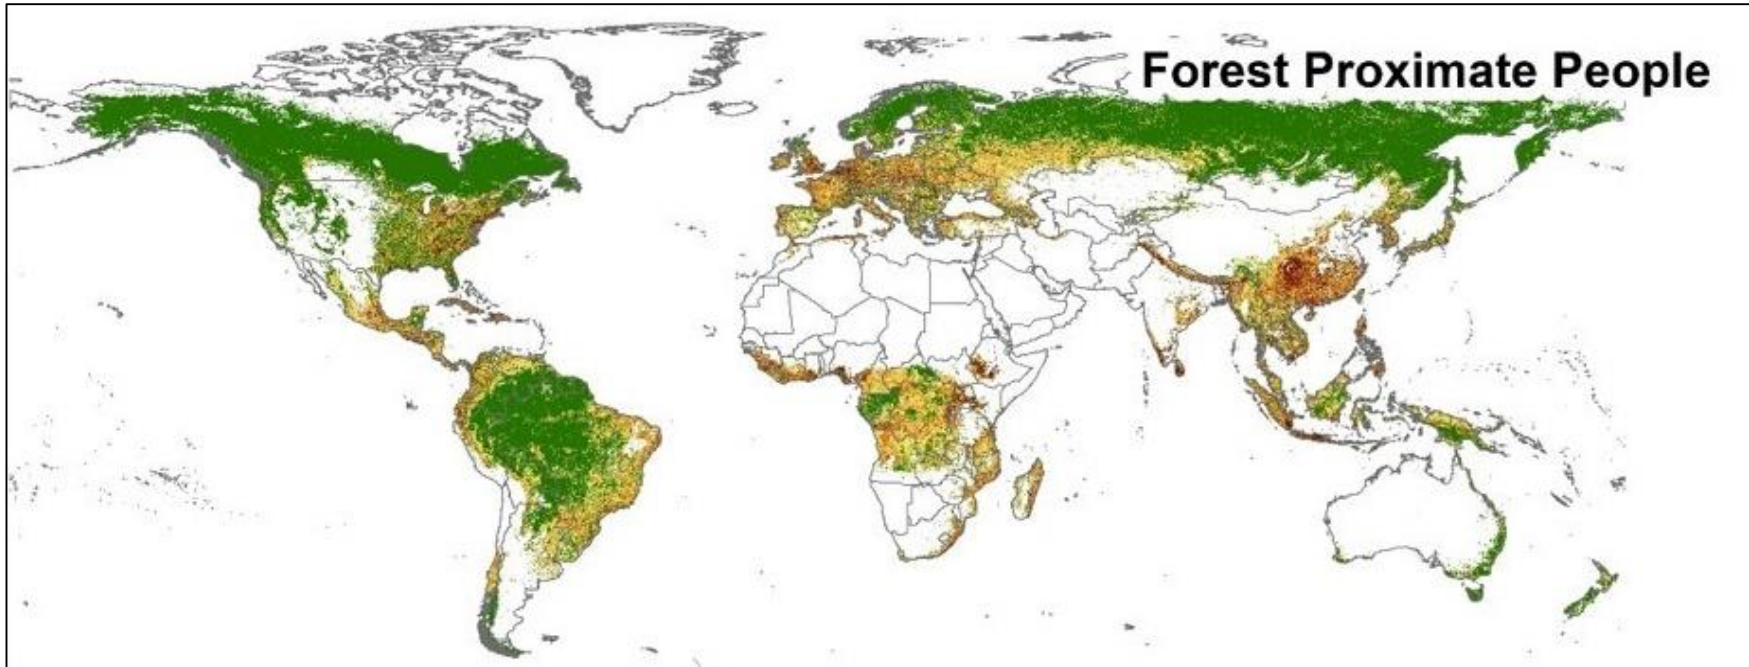

- Forests provide \$250 billion in various forms of income and are essential to the **livelihoods** of 1.6 billion people – a quarter of the world's population
- They contain 80% of the Earth's terrestrial **biodiversity**
- Forests absorb up to a third of all **carbon** emissions

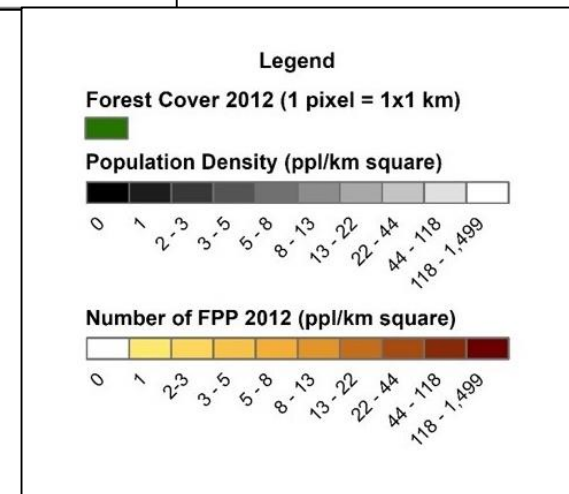

# Forests, trees and people overlap

- One quarter of the world's people live within 5km of a forest
- More than a billion people derive direct and indirect benefits from forests and trees

Source: Newton, P., A. Kinzer, D.C. Miller, J.A. Oldekop, A. Agrawal. 2020. The number and spatial distribution of forest-proximate people globally. *One Earth*.

# The subsidy from nature

- Nature is a direct primary source of food, clean water, and energy for many population groups lacking alternatives.
- 1.2-1.7 billion people in tropical countries (30% of their population) are highly dependent on nature for basic human needs.
- Populations highly dependent on nature for their basic needs are most sensitive to environmental changes.
- Nature-based strategies must be carefully designed to promote inclusive human development.

iClicker  
AC

- Focus on forests as part of sustainable development efforts
- How to achieve the balance between economic development and conservation
- Exercise in identifying what additional SDG's are needed

- CONS 452 (12 credit capstone course)
- Each week is a different SDG module
- Links between SDG's explored with forests at the centre
- Try to identify opportunities and constraints to achieving SDG's

# CoP26 Commitments on forests and Indigenous Peoples...

- More than 100 world leaders promised to end and reverse deforestation by 2030. Over \$19 billion committed to support this commitment.
- Indigenous Peoples to receive \$1.7bn in recognition of role in protecting forests

# Integrating SDGs through the competencies framework

## SDG 4

*By 2030, ensure that all learners acquire knowledge and skills needed to promote sustainable development, including, among others, through education for sustainable development and sustainable lifestyles, human rights, gender equality, promotion of a culture of peace and non-violence, global citizenship and appreciation of cultural diversity and of culture's contribution to sustainable development*

Target 4.7 of the SDGs (United Nations, 2015)

# Key Competencies for Achieving SDGs

Systems Thinking

Anticipatory

Normative

Strategic

Collaboration

Critical Thinking

Self-awareness

Integrated problem-solving

UNESCO, 2017

# At the course objectives level

<b>Competency Name</b>	<b>Learning Objectives</b>
Self-awareness	Ambassadors are able to identify their personal and cultural value base and make tangible connections to their community and sustainability issues or goals they want to pursue
Systems Awareness	Ambassadors are able to identify and appreciate interconnections of any system and be able to understand their influences and how these interactions may influence their goals
Interdisciplinary Integration	Ambassadors are able to actively engage and participate in interdisciplinary interactions and conversations around key sustainability issues
Interpersonal and Collaborative	Ambassadors are able to work collaboratively with organizations and individuals from various backgrounds and perspectives
Strategic Application	Ambassadors are able to conceptualize and implement ideas by integrating their competencies and working with various stakeholders

# UBC SUSTAINABILITY AMBASSADORS

Become a leader in sustainability while designing projects that foster human and environmental wellbeing.

## PARTICIPANT-FOCUSED GOALS

- Develop competencies and skills to foster innovation, equity, and mutual respect
- Facilitate sustainability ideas to action

## COMMUNITY-FOCUSED GOALS

- Increase awareness of sustainability issues on and off campus
- Get students involved in sustainability through interdisciplinary programming and engagement with multiple stakeholders

## MODULES

### KNOW YOURSELF

Identify sustainability goals and reflect on skills and competencies to achieve them.

### EXPLORE + MAKE CONNECTIONS

Learn about community and systems and how they relate to sustainability goals.

### LEARN, PLAN, REVISE

Develop and plan to achieve sustainability goals.

### IMPLEMENT + PRACTICE

Plan project deliverables using skills and competencies.

### DOCUMENT + REFLECT

Document outcomes and achievements, as well as personal learning reflections.

## COMPETENCIES

Self-awareness

Systems awareness

Interdisciplinary  
Integration

Interpersonal and  
Collaborative

Strategic Application

# As an evaluation framework

## Systems thinking

Systems thinking, working with complex problems, promoting resilience, understanding tipping points and feedback loops

- Are learners able to work with interconnectedness and complexity in a systemic context?
- Do learners have a functional knowledge of tipping points, resilience and feedback loops?
- Can learners understand how to work with socio-ecological systems?
- Do learners have a working concept of resilience?

## Interpersonal

Communication skills, empathy, compassion, leadership, teamwork, mediation, cooperation, collaboration, participation

- Are communication skills taught?
- Are learners facilitated to work well with others?
- Can learners assist each other in peer to peer learning?
- Are learners, across gender, ethnicity and other groupings, able to explore their leadership skills? Is empathy valued and encouraged?
- Are learners able to address conflict and develop mediation skills? Are there barriers to full participation in learning projects?

# Transformative Teaching Approaches to support SDGs

Prioritize student choice and self-selection

Design reflective practices

Place-based learning

Community connections

Case studies

Role play

Storytelling

Jig-saw

Group work

Project-based learning

## Example SDG Assignments

- Students were asked to find local companies in their community for each of the SDGs and make a case study to create awareness on the impact local economies have on the SDGs.
- Tackling a target related to the SDGs, explore it and understand in more detail and then identify entrepreneurial solutions to the target.
- Students formed tag teams, decided on a jurisdiction and were asked to find out how to implement at least two targets of two SDGs in their projects. This way, students can see and think about how the SDGs can be implemented in practice.
- Identify policies and practices that either advance or hinder our progress towards the SDGs.
- Students can be encouraged to develop new partnership and pitch new ideas to a panel of university decision makers. This helped students harness their ability to influence sustainable change, get creative with their ideas and pitch it to those who are able to bring their ideas to life.
- Undertake hands-on experience in their community and devise a social change strategy.
- Students were asked to find a low performing agriculture company rated with a low score on their sustainability and do a full strategic analysis on where these companies are at with their SDGs using the natural step framework for sustainability and then using backcasting to find out what their future state should be and how the company can strategically create change in order to create more meaningful impact across the SDGs.
- Develop lesson plans or case study on your choice of SDG with clear connections to course objectives

# CANADA'S NATIONAL STRATEGY CONSULTATION

## CHALLENGES AND NEEDS

### FOUR KEY AREAS NEEDING ATTENTION

- **Fostering robust intergenerational relationships and justice**
- **Taking action to combat climate change**
- **Improving decision-making systems**
- **Developing a new understanding of prosperity**

## Jamboard Activity

How can we use the SDGs for education, teaching and learning at UBC?

<https://jamboard.google.com/d/1xL3JyJIGcXn9wkKcKh8als8huZkgdURaCfnP5LXihC8/edit?usp=sharing>

## SDG THE Rankings Report

UBC ranking: THE rankings (out of 1400 universities)

Sixth in SDG 10 (reduce inequality)

Seventh in SDG 13 (climate action)

11th in SDG 14 (conserve and sustainably use the oceans, seas and marine resources for sustainable development)

19th in SDG 12 (sustainable consumption and production patterns)

19th in SDG 17 (improved and more equitable trade)

23rd in SDG 11 (inclusive, safe, resilient and sustainable cities)
